FACTUAL BACKGROUND

11. On November 11, 2025, the U.S. Patent and Trademark Office (“USPTO”) duly and legally issued the ’826 Patent, entitled “Game Paddle.” A true and correct copy of the ’826 Patent is attached as **Exhibit 1**.

12. The ’826 Patent describes a solid sports paddle, such as a pickleball paddle, and methods of manufacturing it with internal structures designed to affect the paddle’s feel and performance during play. The technology described in the ’826 Patent is implemented in infringing pickleball paddles including, but not limited to, the ProXR Shift Paddle (“Accused Product”).

13. ProXR has infringed and continues to infringe the ’826 Patent by making, using, selling, offering to sell, or importing products including, but not limited to, the ProXR Shift Paddle.

14. Throughout its infringement, ProXR has had actual knowledge of JOOLA’s ’826 Patent and of ProXR’s infringement of the ’826 Patent.

COUNT I—INFRINGEMENT OF THE ’826 PATENT

15. JOOLA realleges and incorporates by reference each of its allegations in paragraphs 1-14 of this Complaint.

16. JOOLA has not licensed or otherwise authorized ProXR to make, use, offer for sale, sell, or import any products that embody the inventions of the ’826 Patent.

17. As shown in the attached non-limiting claim chart (**Exhibit 2**), by making, using (at least by testing), selling, offering for sale, and/or importing the Accused Product in this Judicial District and throughout the United States without license or authorization, ProXR is now and has been directly infringing at least claim 1 of the '826 Patent, either literally or under the doctrine of equivalents, as proscribed by 35 U.S.C. § 271, *et seq.*

18. Exhibit 2 is intended solely to satisfy the notice requirements of Federal Rule of Civil Procedure 8(a)(2), and does not represent JOOLA's preliminary or final infringement contentions or preliminary or final claim construction positions. JOOLA reserves the right to modify its infringement theories reflected in Exhibit 2 as discovery progresses in this case, including through contentions disclosures and claim construction in accordance with the Patent Local Rules in this District.

19. As a direct and proximate result of ProXR's direct infringement of the '826 Patent, JOOLA has been and continues to be damaged. ProXR's infringing activities will continue unless enjoined by this Court or until the patent expires, whichever is sooner.

20. By engaging in the conduct described herein, ProXR has injured JOOLA and is thus liable for infringement of the '826 Patent, pursuant to 35 U.S.C. § 271.

21. ProXR has committed and continues to commit acts of infringement that ProXR actually knew or should have known constituted an unjustifiably high risk of infringement of at least one valid and enforceable claim of the '826 Patent. ProXR's direct infringement of the '826 Patent has been and continues to be willful, intentional, deliberate, or in conscious disregard of rights under the patent. JOOLA is entitled to an award of treble damages, reasonable attorney fees, and costs in bringing this action.

JURY DEMAND

22. Pursuant to Federal Rule of Civil Procedure 38(b), Plaintiff hereby demands a trial by jury on all issues triable of right by jury.

PRAYER FOR RELIEF

WHEREFORE, Plaintiff respectfully request that this Court hereby enter judgment against Defendant and provide relief as follows:

- B. Entry of judgment declaring that ProXR's infringement of the '826 Patent has been willful and deliberate;
